The above prices are based on a base river transportation charge (including reloading at docks and transportation to the river loading docks and reloading on transportation facilities receiving docks) of 265 cents per net ton. If the actual transportation charge is greater than 265 cents, the exact difference between the actual rate and the 265-cent base rate may be deducted from the base mine prices shown above. If the actual transportation charge is less than 265 cents, the exact difference between the actual rate and the 265-cent base rate must be added to the base mine prices shown above. The producer may absorb the actual switching charge from the dock to "on-track" industries at destination. No absorption shall be made to "off-track" industries or deliveries.

All such redelegations of authority, as are authorized herein, must be in writing, designating by name, title and address the delegatee and specifying the authority delegated. A copy of the delegation of authority shall be made available to the regional FC manager. (In the case of Region I these authorities are delegated to the RR Supervisor for Region I.)

A. The following authority may not be redelegated by the regional directors:

1. *Wage rates.* To prescribe wage rates to be paid for construction work by contract carried on with TP loan funds.

2. *Release of security.* To authorize the release from the terms of the mortgage, such security as is necessary to enable the borrower to sell a part of the land for right-of-way for a road, building sites for public purposes, public utility easements or other purposes, provided that such sales are either necessary or desirable to make the farm a more satisfactory family-size unit and to execute the instruments for such sales when such instruments are approved by the regional attorney and when the proceeds from the sales are used to protect the security of the Government.

3. *Utilization of resettlement lands.* (1) To execute deeds in the sale of these lands to applicants for TP loans after these lands have been approved by the Administrator for such sales. (2) To determine the selling price of the resettlement lands in accordance with the established standards: *Provided, however,* That no land can be so utilized unless the county committee certifies with respect thereto as under regular procedure.

4. *Execution of affidavits affecting recorded instruments.* To execute and record affidavits or agreements in connection with or affecting instruments of record, pursuant to the provisions of state statutes.

5. *Release of controlled funds.* To order any depository of TP funds held in the controlled bank account, to pay such funds upon written demand to the Government or to any person or persons designated by the regional director. 1. *Approval of loans.* To approve TP loans and supplementary TP loans by executing the necessary documents and amendments thereto and by approving the vouchers.

2. *Approval of titles.* To determine whether or not easements, leases and other outstanding reservations and exceptions to, and minor defects in, the title to lands to be acquired through TP loans will interfere with the purpose for which the land is to be acquired.

3. *Variable payments.* To determine annually the amount of payment each borrower is to make under the variable payment plan.

4. *Releases.* To give the consent of the Government to releasing from the terms of the TP mortgage, timber and naval stores for commercial harvesting, stone, gravel, coal and other minerals for commercial disposal, and land for oil leasing, provided that: (1) The timber and naval stores are harvested in accordance with the approved farm management practices. (2) The quarrying of stone, removing of gravel, mining of coal and other minerals, and the leasing of land for oil does not interfere with the agricultural use and value of the farm or, if the agricultural use or value is impaired, compensating payments will be made to the Government for such losses. (3) The proceeds of sales from any of these transactions are to be divided equitably between the Government and the borrower, the part paid to the Government being in addition to the annual amortization payment due on the farm.

5. *Removal of buildings.* To give the consent of the Government to the removal of buildings from TP farms.

6. *Contracts and plans.* To approve plans and construction contracts for major repairs and new construction.

7. *Construction performed with TP loan funds.* To specify the methods by which construction work is to be done provided, however, that nothing contained in this paragraph or in paragraph I C 6 above shall be construed to authorize any official of the FSA to vary or modify or approve the variance or modification of the wage rates prescribed by the regional director in accordance with paragraph I A 1 of this Instruction or to vary or modify or approve the variance or modification of any of the labor provisions of the approved form of construction contract.

D. The following authorities may be redelegated to state RR directors, state TP specialists, assistant state TP specialists, district RR supervisors and county RR supervisors, in addition to the persons indicated in paragraph I C:

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

[Docket No. 3843]

IN THE MATTER OF AMERICAN OIL COMPANY, AND GENERAL FINANCE, INC., RESPONDENTS

COMPLAINT

Pursuant to the provisions of an Act of Congress, approved October 15, 1914, entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes" (the Clayton Act—U.S.C. Title 15, Section 13), as amended, and by virtue of the authority vested in it by said Act, the Federal Trade Commission, having reason to believe that American Oil Company, a corporation, has violated the provisions of subsection (a) of Section 2 of said Clayton Act, as amended, and that General Finance, Inc., has violated the provisions of subsection (f) of Section 2 of said Clayton Act, as amended, hereby issues its complaint stating its charges in those respects as follows:

PARAGRAPH 1. Respondent American Oil Company is a corporation organized, existing and doing business under and by virtue of the laws of the State of Maryland, with principal office located in the American Building, Baltimore, Maryland. Said respondent is engaged chiefly in the business of producing, manufacturing, distributing and selling gasoline and other petroleum products in various states of the United States and in the District of Columbia. Gasoline manufactured and sold by said respondent is mostly of two grades, namely, a so-called "high test" gasoline sold under the trade name "Amoco", and a "standard" gasoline sold under the trade name "American" or "Orange American". Gasoline sold and delivered by said respondent to gasoline stations in the District of Columbia is transported into the District of Columbia in tank wagons from said respondent's bulk plants in the State of Virginia and delivered from said tank wagons.

PAR. 2. Respondent General Finance, Inc. is a corporation organized, existing and doing business under and by virtue of the laws of the State of Delaware, with principal office and place of business located at 2221 14th Street NW., Washington, D. C. Said respondent is engaged in the business, among other things, of selling and financing the sale of taxicabs, and also leases and operates two gasoline stations, one located at the corner of 14th Street and Florida Avenue NW., Washington, D. C., and another located at the corner of 6th Street and Rhode Island Avenue NW., Washington, D. C., at which stations it engages in the business of selling "Amoco" and "American" gasoline at retail to taxicab operators and to the public.

PAR. 3. The said gasoline stations operated by respondent General Finance, Inc., as set forth in Paragraph Two hereof, are engaged in competition in the sale of gasoline at retail with numerous other dealers in gasoline in the District of Columbia selling American Oil Company gasoline, and with gasoline dealers selling the gasoline of other producers.

PAR. 4. On or about July 17, 1936, respondent American Oil Company entered into a contract for the sale of gasoline with six corporations, four doing business in Washington, D. C., and two in Baltimore, Maryland, all engaged in the business or organizing, promoting and serving associations or groups of taxicab operators in those cities. A copy of said contract, marked "Exhibit A" is annexed hereto and made a part hereof.[1] The word "Corporation" in the name "City Cab Corporation, Inc." was inserted in said contract by mutual error of the parties and said name was intended to be and describe City Cab Association, Inc. of Washington, D. C.; and said contract has at all times been so understood and treated by the parties. Said contract provides for the sale of "Amoco" and "American Gas" by tank wagon delivery in the District of Columbia at a price of five and five-eighths cents (5⅝¢) per gallon below the current posted retail service station price for said products, said price being from one and five-eighths cents (1⅝¢) to two and one-eighth cents (2⅛¢) lower than the posted tank wagon prices charged by respondent American Oil Company for "Amoco" and "American Gas" sold by it to other retail gasoline station operators in the District of Columbia.

PAR. 5. The business policies and activities of all of the taxicab companies named in said contract were at the time of the execution of said contract controlled by respondent General Finance, Inc. or by its officers, Herbert Glassman and Edward C. Ostrow, through stock ownership or voting control and through ownership of the majority of the taxicabs operated under the names of said companies. The gasoline used in taxicabs which are owned by or operated under the names of said companies, is purchased by the operators of such taxicabs, and is not supplied by said companies or by respondent General Finance, Inc. except by sale.

PAR. 6. Subsequent to the execution of said contract, and during the years 1937, 1938 and 1939, respondent American Oil Company has sold and delivered large quantities of "Amoco" and "American" gasoline, pursuant to the terms of sale and at the prices specified in said contract of July 17, 1936, to respondent General Finance, Inc. Such deliveries have averaged more than 100,000 gallons per month during said period, and have been made at the retail gasoline stations operated by General Finance, Inc. at 14th Street and Florida Avenue NW., and 6th Street and Rhode Island Avenue NW., Washington, D. C., as aforesaid. American Oil Company has billed said gasoline to General Finance, Inc., and payemnt for the same has been made by General Finance, Inc. The gasoline so purchased by General Finance, Inc. has been resold by it at retail to taxicab operators and to the public generally. The fact of such resale has at all times been well known to respondent American Oil Company, although the said contract provides that the products purchased thereunder "are for Buyer's own consumption only and not for resale, in whole or in part, to Buyer's employees or any other person".

[1] Filed as a part of the original document.

PAR. 7. By selling its "Amoco" and "American" gasolines to respondent General Finance, Inc. at the prices stated in Paragraph Four hereof, and by contracting to sell its said gasolines in the District of Columbia to City Cab Association, Inc., General Taxicab, Inc., Prudom Cab Co., Inc., and Harlem Taxicab Association, Inc. at said prices, which prices are substantially lower than the prices charged by it for said gasolines, respectively, to other retail dealers in gasoline in the District of Columbia, respondent American Oil Company has discriminated in price, and is discriminating in price, between respondent General Finance, Inc., City Cab Asociation, Inc., General Taxicab, Inc., Prudom Cab Co., Inc., and Harlem Taxicab Association, Inc., respectively, and other retail gasoline dealers in the District of Columbia who purchase and deal in said American Oil Company products. The effect of such discrimination in price has been and may be substantially to lessen competition and tend to create a monopoly in commerce in and with the District of Columbia in the sale and distribution of gasoline, and to injure, destroy and prevent competition with respondent American Oil Company and with its said customers receiving the benefit of said discrimination.

PAR. 8. Said contract of July 17, 1936, was executed on behalf of five of the six taxicab companies named as buyers by Herbert Glassman and Edward C. Ostrow, who are President and Treasurer, respectively, of respondent General Finance, Inc. Respondent General Finance, Inc., and its said officers, at the time of the execution of said contract and at all times since that date, have well known that the prices for "Amoco" and "American" gasoline fixed in said contract and thereafter paid by said respondent to American Oil Company for said gasolines, as hereinbefore set forth, were and are from one and five-eighths cents (1⅝¢) to two and one-eighth cents (2⅛¢) lower than the prices at which "Amoco" and "American" gasoline have been sold by American Oil Company during the same period to other retail gasoline dealers in the District of Columbia, including many such dealers competing in the sale of "Amoco" and "American" gasoline with the stations operated by General Finance, Inc. Said discrimination in price was knowingly induced, and at all times herein mentioned has knowingly been received, by respondent General Finance, Inc. Said distribution in price, as more fully set forth in the preceding paragraphs hereof, is prohibited by subsection (a) of Section 2 of said Clayton Act, as amended.

Wherefore, the premises considered, the Federal Trade Commission on this 7th day of July, A. D., 1939, issues its complaint against said respondents.

*Notice*

Notice is hereby given you, American Oil Company, a corporation, and General Finance, Inc., respondents herein, that the 11th day of August, A. D. 1939, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule VII) provide as follows:

In the case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 7th day of July, A. D. 1939.

By the Commission.

[Docket No. 3844]

IN THE MATTER OF THE WILLIAMS AND WILKINS COMPANY, A CORPORATION

COMPLAINT

The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly described, since June 19, 1936, has violated, and is now violating the provisions of subsection (a) of Section 2 of the Clayton Act, as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. title 15, sec. 13), issues its complaint stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent, The Williams and Wilkins Company, is a corporation organized and existing under and by virtue of the laws of the State of Maryland, with its office and place of business at Mount Royal and Guilford Avenues, Baltimore, Maryland, and has been prior to June 19, 1936, and is now engaged in the publication, distribution and sale of medical and other scientific books. Respondent sells and distributes said books in commerce between and among the various states of the United States and the District of Columbia, causing said books to be shipped and transported from their place of publication in Baltimore, Maryland, to purchasers of said books located in the various states of the United States and the District of Columbia, for use and resale within said states and the District of Columbia.

PAR. 2. In the course and conduct of its business as aforesaid, respondent is now, and during the time herein mentioned, has been in substantial competition with other corporations, individuals, partnerships and firms engaged in the business of publishing, distributing and selling medical and scientific books in commerce between and among the various states of the United States and the District of Columbia.

PAR. 3. In the course and conduct of its business as above described, respondent has, since June 19, 1936, discriminated in price, and is now discriminating in price between different purchasers buying the same books for resale to retail dealers or ultimate users by giving and allowing to some of its purchasers of said books lower prices than those given or allowed other of its said purchasers competitively engaged, one with the other, in the resale of said books either to the retail book dealer or to the ultimate user within the United States. Said discriminations consist, for example, in granting and allowing price discounts of 20 per cent to some, 25 per cent to some, 30 per cent to others, and 35 per cent to still other purchasers of the same books for resale in the same area to the same prospective customers. The effect of such discriminatory discounts or prices is to enable some of said purchasers to buy said books at a lower price than competing purchasers to the injury of the less favored buyer.

PAR. 4. The general effect of said discriminations in price made by said respondent, as above set out, may be substantially to lessen competition with the favored purchasers; to tend to create a monopoly in the favored purchasers; to injure, destroy or prevent competition in the sale and distribution of said medical books between the said favored purchasers of said books receiving such discriminatory prices and other less favored competing purchasers of the same books not receiving said discriminatory prices.

PAR. 5. The foregoing alleged acts of said respondent are in violation of Section 2 (a) of the Clayton Act, as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. title 15, sec. 13).

Therefore, the premises considered, the Federal Trade Commission on this 8th day of July, A. D. 1939, now issues its complaint against said respondent, stating its charges in that respect as hereinabove set out.

*Notice*

Notice is hereby given you, The Williams and Wilkins Company, a corporation, respondent herein, that the 11th day of August, A. D. 1939, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule VII) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 8th day of July, A. D. 1939.

*Hearing*

§ 202.23 *Who shall conduct; to be public unless otherwise ordered.* The hearing for the purpose of taking evidence upon a complaint shall be conducted by a Trial Examiner designated by the Board or the Chief Trial Examiner. Such hearings shall be public, unless otherwise ordered by the Trial Examiner.*†

AN ORDER FOR AND NOTICE OF FINAL HEARING IN THE MATTER OF THE ESTABLISHMENT OF MINIMUM PRICES FOR THE COALS PRODUCED IN DISTRICTS NOS. 9, 10, 11, 12, 13, 14 AND 15

[*The Order for and Notice of Final Hearing and the schedules of proposed coordinated minimum prices for Districts Nos. 9 and 10 appeared in the Federal Register for Thursday, July 13, 1939.*]

SCHEDULE OF PROPOSED COORDINATED MINIMUM PRICES FOR DISTRICT NO. 11

FOR ALL SHIPMENTS EXCEPT TRUCK

*Explanatory*

This schedule of prices is designed to show an f. o. b. mine price for all sizes of coal, from all mines in District No. 11, to all destinations in all market areas.

Wherever expedient, differences in freight rates between mines are absorbed in the f. o. b. mine prices shown on the price tables. In such cases the price tables are captioned "Based on actual freight rates."

In cases where the destination points in an area could be segregated into two or more groups, this was done and a separate price table made for each group and such tables as are captioned "Based on actual freight rates" reflect the differences in freight rates between mines.

Where freight rate differences to numerous destination points within a market area are not uniform it was necessary to set up deduction tables. In these tables the destination points are arranged alphabetically and the amount of deduction for each mine by index number, or each group of mines by mine origin group number, is shown. The caption of each of these tables shows whether the deduction is set up by mine index number or by mine origin group number.

The price tables for such areas as have freight rate adjustments are captioned "Subject to deductions for freight rate differentials."

In all areas where there are deductions for freight rate differences, such deductions are set out on the page or pages immediately following the price table.

**PRICE TABLE NO. 26.**—*Prices F. O. B. Mines for Shipment by Railroad, Applicable for All Uses Except Railroad Locomotive Fuel for All Destinations in Market Area No. 41, Subject to Price Instructions and Exceptions and to Deductions for Freight Rate Differentials as Shown Hereinafter*

[Owing to the fact that differentials in freight rates are not uniform to this area, it is divided into nine destination groups, prices for which follow in consecutive order on price tables Nos. 26 to 34. These prices are based on and adjusted to the lowest published freight rate from mines in the Brazil-Clinton subdistrict. Following the price tables, all destination points in this area are listed alphabetically, showing the destination group assigned to each point, together with the exact amount of the deduction which shall be made by each mine from the prices herein published, for the purpose of adjusting such prices to the actual differentials in published freight rates existing between each mine and the lowest published Brazil-Clinton rate]

[*Example.* To find the net minimum price for the Binkley Mining Co., Lucky Strike mine, size group No. 3 for shipment to Moline, Illinois: Alphabetical list of code members shows that the mine is Index No. 57 and is in mine origin group No. 20. Alphabetical list of destinations in this area shows that Moline, Illinois, is in destination group No. 1 and that the freight rate differential to be deducted between mine origin group No. 20 and the Brazil-Clinton rate is 20 cents per ton. Price table No. 26 for destination group No. 1 shows price for mine index No. 57 in size group No. 3 to be 180 cents per net ton. Deduct the freight differential of 20 cents per ton from that figure and the result is 160 cents, which is the net minimum price for coal in size group No. 3 for the Lucky Strike mine of the Binkley Mining Co. for shipment to Moline, Illinois]
